UltimateBet R.I.P.

Like its sister site Absolute Poker, UltimateBet is now dead. It took a bit longer to die, but has now disappeared from the Internet just as completely, totally and utterly. As Full Tilt is now definitely to be resurrected, these are the two biggest casualties of the Black Friday domain seizures.

The eleven screengrabs below – in chronological order – are all from cash games and tournaments played by our hero and by someone he knows only too well, though as a matter of policy we have never played against each other.
